

# Using Relevance and Authority to Gain Attention

## DENTIST OFFICE CASE STUDY

### MARKETING CAMPAIGN GREW THE CLIENT'S ROI BY MORE THAN 5X

In this case study, as part of Advance Healthcare, our Pennsylvania team used a combination of Search and Social Media to drive patients to a dentist office. This dental practice change hands and wanted to prepare for the transition of patients. Our client understood that engaging these patients through an effective marketing campaign was a critical step.

The plan started with a website optimized for use in mobile, and the addition of a pay per click campaign. After developing a purposeful keyword plan to attract new patients, the team used best practices to design a high return bidding strategy. Over time, this shifted prospects into long term, satisfied patients. Along the way, client engagement and recommendations have been critical to our strategy.

#### PERFORMANCE RESULTS

In addition to offering business referrals for our team, the practice has:

 **88%**  
INCREASED PHONE INQUIRIES TO THE OFFICE

 **900%**  
RETURN ON INVESTMENT IN A SINGLE MONTH

 **23%**  
INCREASE CLICK THROUGH FROM SEARCH

 **5X**  
SURPASSED ROI FOR THE CAMPAIGN
